AFRICA

LATEST INNOVATIONS, TECHNOLOGIES

AURA will offer an early look at its newest innovation: a discreet physical panic button designed to make emergency support faster and easier to access in high-pressure moments. With a single press, users can trigger an alert, share their location through the app, and enable real-time dispatch through AURA's nationwide network of private security and medical responders.

Hall 2

Cartrack will showcase its powerful Vision dash cams, smart fleet management tools, advanced risk management solutions, and its stolen vehicle recovery service.

Hall 2
D03

DeepAlert's cloud-based AI video analytics delivers a powerful false alarm filtering service to monitoring stations.

Hall 2
D11

Lodge Security SA is unveiling the Transpeye AI-powered loss prevention platform, and launching integrated panic button technology.

Hall 2
B10

SpotBot Advanced AI Feature: This new app capability transforms how users monitor CCTV footage. AI-powered, the feature uses custom user-generated prompts to detect specific events tailored to individual needs.

LAUNCHES

SASI Comtech is launching an activation called 'Get your branded security app in 30 minutes'. Companies visiting the stand can have their own fully branded, customised security app, tailored to their operational needs, created and delivered on the spot within 30 minutes, ready to use immediately.

Hall 2
E09

XIOT will launch its partnership with global telematics company Ruptela, renowned for developing and manufacturing high-quality GPS tracking devices.

Hall 2
E15

DEMONSTRATIONS, COMPETITIONS & SPECIAL OFFERS

Fog Bandit's live demonstrations will run continuously throughout each exhibition day. Visitors can experience firsthand how Fog Bandit activates within seconds, filling a space with dense fog to immediately disrupt and stop intruders.

Hall 2
A10

Huntool will demonstrate the strength of its fall arrest buckles every day, every two hours.

Hall 3
E29

InQuest Forensic Services will run live demonstrations of a polygraph using the Stoelting Elite system.

Hall 2
C13a

Visit **Lodge Security SA** for a chance to win a premium goody bag packed with high-value items, including a power bank and more. To enter: follow their social media page, engage with them on the stand.

Hall 2
B10

MAC EVOS's experts will walk you through their Intelligent Fibre sensing technology for total perimeter protection.

Hall 2
F25

Visit **Olarm** for live demonstrations, hands-on interaction with the Olarm ecosystem, and an early look at upcoming products for residential and professional security.

Hall 2
A03

Paysolutions (in partnership with Shop2Shop) will provide real-time demonstrations of how cash is securely deposited into the Optimus drop safe, processed, and converted into digital value via the Shop2Shop wallet. The demonstration will highlight how funds can be tracked instantly, providing full visibility, control, and auditability across multiple locations.

Hall 2
E11a

Sentiv has demonstrations running daily of PTTtoC and DMR communications, the Smart Vest wearable for field operatives, Stratus Alert for real-time emergency response, and Intelligent Safe for remotely managed cash and asset security.

Hall 2
A09

SpotBot App Experience — Visitors can explore the premium features, including live view mode, connection monitoring, and in-app user messaging through guided walkthroughs of the intuitive interface.

Link
Node
LN03

Advanced AI Feature Demo — Watch real-time demonstrations of custom prompt monitoring in action. The team will showcase how **SpotBot** detects events, like open gates or low water levels, and notifies users immediately.

Link
Node
LN03

Spotbot Armed Response Web App Simulation — Experience simulated two-way communication between clients and control rooms. See live device status monitoring and camera feeds in operation, demonstrating how the platform enables precise, detailed monitoring for faster decision-making and smarter resource allocation for security teams.

The Awareness Company will present live demos of HYDRA, an operational intelligence platform built for complex physical environments: mines, campuses, malls, CIDs and property portfolios. The platform fuses WhatsApp groups, field teams, providers, sensors and meters into a single live view. Each session covers incident response, contractor accountability, utilities visibility and proof of closure across security, maintenance and service delivery. 15-minute demo followed by Q&A.

Hall 2
C12

Tiandy's demonstrations include its surveillance education solution, with its teaching supervision function; cameras working in a fully darkened room, yet providing bright and vivid images; and entry-level cameras working that can work under water or in frigid environments.

Hall 2
D18

Join **Ultranax** for scheduled live demonstrations and interactive tech sessions running daily. Each session will showcase real-world security applications using Pulsar thermal imaging for perimeter detection and surveillance in low-visibility conditions. Visitors can also experience Earmor electronic hearing protection designed for clear communication and situational awareness, alongside Acebeam high-performance lighting solutions for patrol and response teams. Interactive 'spot-the-threat' challenges will run during demos, allowing attendees to test detection capabilities first-hand.

Hall 2
E13b

ASBIS Africa will hold various demos and activations on its stand, including:

- SkyHawk App Surprise Reveal / Launch (exclusive unveiling).
- Live product demos of Seagate Technology SkyHawk surveillance drives and enterprise storage solutions.
- Partner Programme QR activation (scan to sign up and engage with the Seagate Partner ecosystem).
- Win an Official FIFA World Cup Ball Competition (entry via stand engagement / QR interaction). Winner will be announced on Day 3 at 14:00 (TBC).
